MOUNTING SOLAR STRUCTURE

ABOUT US

NUVO Steelcraft is a professionally managed company dedicated to providing complete steel and solar structure solutions for today's rapidly growing infrastructure and energy sectors. The company focuses on providing products that combine strength, precision, and visual appeal, serving industrial, commercial, storage, institutional, and residential projects. Over the years, NUVO Steelcraft has built a reputation for reliability through consistent quality, on-time delivery, and responsive service.

NUVO Steelcraft's core expertise covers pre-engineered buildings, color-coated roofing sheets, Z/C purlins, deck sheets, and solar structures. Each product line is supported by specialized design knowledge and advanced manufacturing facilities , including modern profiling lines and fabrication units. Strict quality controls from raw material to finished products ensure dimensional accuracy, fine finish, and long-term performance in demanding environments.

NUVO Steelcraft believes that every project needs more than just products; it requires a technical partner who understands site conditions, structural behavior, and life cycle expectations. The in-house engineering team supports customers with suggestions. This consultative approach helps reduce waste, improve structural efficiency, and improve overall project value.
The company serves a broad spectrum of customers, including industrial manufacturers, warehouse and logistics operators, commercial developers, institutional campuses, manufacturers, and solar EPC companies. Whether it's a large, pre-engineered building, an architecturally appealing roofing solution, or a custom solar mounting arrangement, NUVO Steelcraft can handle standard and bespoke solutions. A strong supplier network and reliable logistics ensure timely supplies to project sites.

Safety and sustainability are an integral part of NUVO Steelcraft's working philosophy. By offering optimized steel structures, lightweight roofing systems, and robust solar structures, the company supports faster construction, reduced material consumption, and wider adoption of clean energy. The focus on corrosion resistance, structural integrity, and long service life helps customers reduce maintenance requirements and lifecycle costs.

People are at the heart of NUVO Steelcraft. A team of qualified engineers, trained operators, supervisors, and support staff leads the organization with a shared commitment to quality and continuous improvement. Regular training, exposure to new technologies, and adherence to best practices keep the team aligned with changing industry expectations and customer needs.

Looking ahead, NUVO Steelcraft aims to strengthen its presence in India and expand into selected international markets, continuously updating technology, processes and product offerings. The company's mission is to provide reliable solutions that help customers build stronger, safer, and more energy-efficient structures, strengthening NUVO Steelcraft as a trusted name in the steel and solar structures industry.

Plant & Production

Our Total Area of plant 1.60lac Squar feet
and having capacity of 100+ Mw per month

Storage

Why Choose NUVO Steelcraft

Delivering Quality, Reliability & Innovation in Every Project

High - Strength Steel
Engineered for durability and load performance.

Precision Manufacturing
Crafted with advanced production techniques.

Faster Installation
Simplified assembly for reduced project timelines.

ISO-Standard Quality
Adhered to stringent international standards.

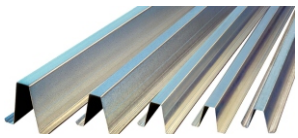
Long Service Life
Durable solutions with extended performance lifespan.

Pan-India Logistics
Efficient supply chain enabling fast and safe delivery across India.

Nuvo Prime Adds Value to Steel and Roll Products with Excellent Quality

- Prefabricated components, no site work, fast installation
- Consistency in quality
- Deliverable capacity of 100+ MW per month
- Cost-effective with long-term durability
- Capacity to export through all major ports with timely delivery

NUVO PRIME™ HAT PURLINS

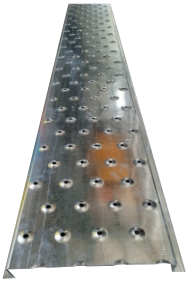


Sections	Thickness	Type
60 mm to 110 mm	0.8 mm to 1.5 mm	Solid Slotted

NUVO PRIME™ STRUT

Sections	Thickness	Type
41x41	1.5mm/ 2mm	Solid Slotted

NUVO PRIME™ WALKWAY



Sections	Thickness	Type
250 × 30 × 20 300 × 30 × 20	1.5 mm 2 mm	Solid Slotted

NUVO PRIME™ C LIP CHANEL

Sections	Thickness	Type
40 x 40 x 10 60 x 40 x 10 80 x 40 x 10 150 x 50 x 15 200 x 60 x 15 250 x 65 x 15	1.2 mm 1.2 mm 1.5 mm 2 mm 2.5 mm	Solid Slotted

NUVO PRIME™ Z PURLINS

Sections	Thickness	Type
80 × 40 × 10 150 × 50 × 15 200 × 60 × 15 250 × 65 × 15	1.5 mm 2 mm 2.5 mm	Solid Slotted

BUILDING STRONGER SAFER & SMARTER STRUCTURES

Engineering strength, precision & long-lasting performance.
